

Animal Graspers are essential tools for humane handling of cats, similar sized and smaller animals. The smoothly contoured grasper jaws are designed to restrain animals while minimizing discomfort. The jaws are also designed to prevent pinching or gathering of the animals skin. The handle grip commands a steel cable, which activates the jaws. This provides the handler with a precise feel of pressure being applied to the animal.

Tomahawk offers graspers in three different categories and two standard lengths. We also custom build graspers to any desired length. Please call for quotes on custom lengths.

Standard Graspers Feature:

- Heavy-duty cast aluminum grasping end with two gripping jaws.
- Heavy-duty cast aluminum handle and lever.
- Stainless steel aircraft cable to connect lever to grasper end.
- Anodized aluminum tube.
- Cushioned grasper jaws for less stress to the animal

Heavy Duty Graspers Feature:

- Same features as our standard tube except with super strong .090 aluminum tube.

Nylon Graspers feature:

- Same features as our standard tube except with nylon jaws and handle. Nylon is extremely lightweight yet strong and durable.

Standard Animal Graspers

| Model | Description | Construction | Wt | 1 to 5 | 6+ |
|-------|----------------------------|--------------|-------|---------|---------|
| 310 | 28" Grasper | Aluminum | 2 lbs | \$79.95 | \$74.95 |
| 311 | 38" Grasper | Aluminum | 2 lbs | \$79.95 | \$74.95 |
| GRC | 1 Pair Rubber Jaw Cushions | | 1 lbs | \$4.35 | \$3.95 |

Heavy Duty Animal Graspers

| Model | Description | Construction | Wt | 1 to 5 | 6+ |
