

Excluders with One Way Door

Our excluders are designed to let animals remove themselves from unwanted areas. Excluders have mounting wings which allow them to be attached directly over the animals' entry/exit hole. The one way door lets animals exit, but prevents them from returning.

Excluder Traps With One Way Door and Rear Door

The rear door turns excluders into repeating traps. Simply remove the rear door to use this as a true excluder, or put the door in place to trap excluded animals.
